SUMMARY

As an entry-level front-end web developer, I possess a solid foundation in HTML, CSS, JavaScript and Python with experience in developing responsive user interfaces using frameworks such as Bootstrap. I am proficient in writing clean, maintainable, and semantic code and have basic knowledge of version control using Git.

Overall, I am a dedicated and passionate learner, eager to collaborate with cross-functional teams to bring designs to life and create intuitive and engaging user experiences.

WORK EXPERIENCE

Business Web Solutions, India (https://www.businesswebsolution/**)**   **Nov 2022 – Mar 2023**
Web Development Intern

- Developed and maintained several websites utilizing a range of front-end frameworks including React resulting in increased user engagement and improved website performance.
- Created responsive and user-friendly designs using frameworks such as Bootstrap and Material UI, resulting in a consistent user experience across multiple devices and platforms.
- Continuously researched and implemented new technologies and industry best practices, resulting in improved website functionality.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Java, Python, C#, SQL
Libraries: Bootstrap, jQuery, ReactJS
Development Tools: MS-Office, Visual Studio Code, Git
Areas of Interest: Web Development, Logical Programming

PERSONAL PROJECTS

My Portfolio Website

- As a front-end web developer, I built a portfolio website to showcase my skills, experience, and projects to potential employers and clients.
- Using HTML, CSS, and JavaScript, I designed and developed a responsive and visually appealing website that accurately represents my skills and professional style.
- I incorporated a range of front-end frameworks and libraries, including Bootstrap and jQuery, to enhance the website's functionality and user experience. I also utilized various plugins and tools to optimize the website's loading speed and performance.

Restaurant Website

- I built a restaurant website for Landmark Restaurant to enhance their online presence and provide a seamless user experience for their customers.
- Using HTML, CSS, and JavaScript, I designed and developed a visually appealing website that accurately represents the restaurant's brand and ambiance.
- Utilized a user-centered design approach to create a website that is easy to navigate and provides a positive user experience.

CERTIFICATIONS

- Internship In Full Stack Web Development - BWS (Certificate)   • **2023**
- Java Programming - Great Learning (Certificate)   • **2022**

ABILITIES

- Good Communication Skills
- Quick Learner
- Good attention to detail
- Flexible and Adaptive to new environments
